Mission

The Honors Program at the Academy cultivates academic excellence across all majors and encourages scholarly achievement.

Second- and first-class cadets may be selected for the Honors Colloquium to compete for:

- Scholarships such as the Rhodes, Marshall, Fulbright, Truman, Schwarzman, and Gates
- Honors internships, fellowships, and independent studies/research projects
- Travel to present research at academic conferences

The Academy offers opportunities to fourth- and third-class cadets:

- Validation and placement in advanced courses in chemistry, physics, and mathematics

**THE CGA SCHOLARS STUDYING ABROAD DURING 2021-2022 ACADEMIC YEAR**

**ENS Owen Gibson (Class of 2020 - Civil Engineering Major)**

2020-2021 Fulbright U.S. Student Award – Germany (Engineering; 1-year grant)

Research: Predicting the Impact of Climate Change on Soil Erosion in Coastal Areas

Degree: Master of Science in Water Resource Engineering and Management

Institution: University of Stuttgart, Stuttgart, Germany

**ENS Gregory Gaskel (Class of 2020 - Operations Research and Computer Analysis Major)**

2021-2023 Fulbright U.S. Student Award – Hungary (Applied Mathematics; 2-year grant)

Research: Developing Stochastic Models to Enhance Cyber Intrusion Detection via Anomalous Behavior

Degree: Master of Science in Applied Mathematics

Institution: University of Debrecen, Debrecen, Hungary

**ENS Salena Bantz (Class of 2021 – Electrical Engineering Major)**

2021-2023 Fulbright-Tampere University Graduate Award – Finland (Engineering; 2-year grant)

Research: Design of Smart Power Grids for Renewable Energy Systems

Degree: Master of Science in Electrical Engineering

Institution: Tampere University, Tampere, Finland

---

**THE CGA APPLICANTS - FALL 2021 (SUBMITTED)**

**ENS Aidan Uvanni (Class of 2021 – Civil Engineering Major)**

2022-2023 Fulbright U.S. Student Ward - Czech Republic (Engineering; 1-year grant)

Research: Designing Sustainable Treatment System to Address Stormwater Pollution Due to Climate Change

Degree: Master of Science in Water and Environmental Engineering - Water Management

Institution: The Faculty of Civil Engineering, Czech Technical University, Prague, the Czech Republic

**1/c Ryan Berry (Class of 2022 – Government Major)**

2022-2023 Fulbright U.S. Student Ward – Argentina (Communication and Culture; 1-year grant)

Research: Political Communication in the Digital Environment: The Use of Twitter in Argentina

Degree: Master of Arts in Communication and Culture

Institution: University of Buenos Aires, Buenos Aires, Argentina

**1/c Ryan Von Brock (Class of 2022 – Electrical Engineering)**

2022-2023 Fulbright U.S. Student Ward – Canada (Engineering; 1-year grant)

Research: Real-Time Collision Avoidance Solutions in the Maritime Environment

Degree: Master of Applied Science in Electrical and Computer Engineering - Modeling and Simulation

Institution: The Faculty of Engineering and Design, Carleton University, Ottawa, Canada
